Help keep our roads safe

Vehicles speeding through the village is a frustration for all residents. Led by Audlem Parish Councillor Andy Bicknell, a *new, refreshed* Community Speed Watch scheme is to be launched and volunteers are now being recruited to support the effort. Can you help?

Community Speed Watch is a group of volunteers who deliver a high-profile presence to discourage speeding through our village.

Whilst the emphasis is on prevention, they report motorists who speed excessively, and these drivers are issued warnings by the police. The objective is to improve road safety for all.

Andy is no stranger to managing schemes involving safety and traffic. He is a retired police officer with experience both in the UK and in Spain. As such, Andy has spent many years working in community safety. He is also working with fellow councillors on other initiatives to make our village safer.

To get the new Community Speed Watch up and running volunteers are urgently needed. If you can spare even one hour a month, please contact Councillor Andy Bicknell for more information at andy.bicknell@audlempc.co.uk or the Parish Clerk on audlempc@gmail.com
